

Press Release

Facial Examination Biometrics Challenge

MK Ultra Girl

January 1, 2022

Calling all Contenders

Since 2015, upon first witness of MK Ultra Girl image, I believed I was that girl.

The assertion itself lent others to agree given the marked similarity of MKU girl and my grade 2 class photo.

Since then, an esteemed associate, has done an age regression on a head shot of myself taken in 2016 as seen in the MK Ultra Girl is Alive meme above.

First Challenger

Nancy Lumbis - Promoted by **Clyde Lewis** as the real MK Ultra Girl

From Clyde's Blog

I recently sat down with Nancy Lumbis a controversial figure as she claims that she is the MK ULTRA girl.. The girl that is featured in an old photo that has been published. Ellen Atkin made the claim that she was "MK Ultra Girl" in 2016.

However, Barbara Hartwell an Independent Investigator, Intelligence Analyst, Journalist. Former CIA (NOC, Psychological Operations- has claimed that Atkin is a fraud.

Lumbis stated that the CIA was extremely careful to make the MK-ULTRA project non-public. She was also chipped and monitored to become a cut out for the CIA.

W

Well Clyde, allow me to graciously offer you to rise to the challenge or redact your statement which is already in legal dispute with said [batshit](#). Give credibility to **Nancy Lumbis** and her statements, take the challenge.

All Other Contenders

Don't be shy.

To All Contenders

I issue this challenge in good faith and wish that upon acceptance of the challenge we work together with the company selected after a long & difficult search to provide the most credible Expert Witness Consulting services. (details released after acceptance of the challenge).

I have already provided the company with several other images of myself at various stages of my life.

Agree to the challenge and the company will include your facial examination as well, as long as you provide at least one other image to compare with. And yes it can be taken yesterday.

I was given a quote that they will honor for up to one year of \$4,500 Canadian Dollars.

Click the image to go to the fundraiser. Thank you for supporting the challenge.

The screenshot shows a GoFundMe fundraiser page. The title is "Facial Examination Biometrics on MK Ultra Girl". The main image features three photos of a young girl: one labeled "Ellen Atkin Age Reversed", one with a medical mask, and one with "MKUltra" and "RRLLLLL" text. A quote is visible: "SINCE MY MOTHER WAS LEGALLY A MURKIN the best way to deal with this is to lead the MK deception by the throat to the gallows. The Montreal cult is on notice as are many other individuals and orgs. Join us as we wrest the lies out of the past, present and future. ellenatkin@gmail.com". The fundraiser has raised \$50 of a \$4,500 goal, with 1 donation. It includes "Share" and "Donate now" buttons, a location indicator, and a note that it is organized by Ellen Atkin.

My name is **Ellen Atkin**. I believe that I am **MK Ultra Girl** (anonymous girl in photo used to represent trauma based mind control on children of the mk ultra program), the living person. Would you like to know for sure? I would. Let's put this topic to rest. I have endured unprecedented targeting from other mk ultra victims who appear to be jealous of my identification as the girl in the photo. If they and others really want to know, then let's get this done. Let's put it to rest.

I have always stated that I would be more than willing to do the facial recognition to prove it one way or the other. Others claim to be **MK Ultra Girl**. If they are serious, then let them be part of this investigation. I am more than willing to include their analyses in this investigation. In fact, I insist.

Since waging a public campaign begun in 2014, revealing that me and my natal family are all victims of MK Ultra crimes against humanity, I have sought to prove with hard evidence that this is true and begin restorative measures (official acknowledgement, justice, healing & compensation). I have done so on many accounts.

I have collected medical records for my mother and father from the **Allan Memorial Institute in Montreal** where they were both victims of the infamous "**Montreal Experiments**". I have rescued my mentally disabled sister from the present day representation of MK Ultra in London, ON and have her medical files. I have collected multiple testimonies from family members and family associates. I have been foundational in the creation and support of the Montreal Experiments class action lawsuit . Now, it is time to crack this nut, once and for all.

I have obtained a quote from an **Expert Witness Consulting Service** who have looked at the case and stated that yes, it is possible to do the comparison. The total cost of the comparison (estimated at about 10 hrs work) is \$4,500 Canadian dollars. This service includes a 2nd independent verification check. This company works with the DOD and the intelligence community. They are completely credible.

Thank you for your time and consideration in helping me meet this goal.
